

JOB OFFER

Research Associate Assay Development Montreal, Quebec

We are looking for a highly motivated, lab-based research associate interested in working for a young contract research organization (CRO) located at the NEOMED Institute (Technoparc St-Laurent, Montreal, Quebec) and specialized in custom assay development and immunoanalysis of preclinical samples.

Start date:

End of March, 2016

Qualifications:

Bachelor degree in biology/biochemistry or equivalent area and possessing industrial laboratory experience (Pharma/Biotech).

Salary:

Salary will be commensurate to experience

Job description:

Reporting to the Head of Operations, you will assist in the development of assays used for high throughput screening and will conduct immunoanalysis (ELISA, TR-FRET, AlphaLISA, multiplex). You will also be responsible for the maintenance of the laboratories, including the preparation of solutions and the maintenance of laboratory equipments (pipettes, cell incubators, water bath, freezers, microplate readers).

Contact:

Please send your CV and cover letter to info@bioauxilium.com

The ideal candidate possess:

- A demonstrated ability to work independently and within a team;
- Good interpersonal and communication skills (oral and written);
- Good organizational and time management skills; multitasking;
- Excellent technical troubleshooting abilities;
- An ability to work well under pressure and to respond to changing priorities and timelines.
